Note - South Alta REA charges these fees to irrigators for 6 months per year. Fortis Alberta charges their rates for 7 months/ year!

Note- These numbers do **not** include transmission fees or the transmission fee riders. These are set by the Alberta Utilites Corporation, and apply equally to REA or Fortis customers.

Note - These numbers do **not** include the retail fees that you pay for each kilowatt hour that you use!

We calculate that over our entire membership, our Members are saving **over \$1,150,000** by paying our fee structure instead of the FortisAlberta fee structure!
